

SAP Invitation to Business Process Management (BPM) training

Model and execute your business processes quickly and efficiently!

Dear Partner,
Dear Customer,

SAP has been focusing for many years on standardizing the customer's business processes. Because every company is unique and has very specific requirements, they need a process composition tool to create their own processes.

SAP NetWeaver BPM allows you to leverage the service-enabled standard functionality of SAP Business Suite applications and non-SAP software.

[1. BPM300 Business Process Management Governance Overview](#) **START 19/10/2009**

Explain SAP's Business Process Management Governance Framework, Understand how BPM will change the way your company operates, understand functionally driven vs. the Process Driven Organization.
