

ABAP BASICS

Prerequisites

Essential

- Programming experience in another programming language

Duration

- 10 days

Goals

- work with the ABAP Workbench tools
- write simple ABAP programs

Audience

- Development consultants who are responsible for developing and adapting ABAP programs

Software

- SAP NetWeaver 7.0

Content

- Introduction to SAP NetWeaver Application Server
- ABAP Workbench
- ABAP programming basics: fundamental syntax elements, user dialogs, function modules, program calls, and data transfer
- ABAP Dictionary: creating global types (tables, views) and search helps
- Open SQL
- Programming classical screens (dynpros): screen elements, flow logic, user interface

Notes

- In order to be properly prepared for the certification exam after TAW 12, participants might need some extra hours of self-study after the official end of the class every day.
