

SAP ERP SIMulation

ERPSim is a Live, real-time business simulations running on SAP ECC 6.0. It is a 2 days classroom-based competitive business games. This team event not only demystifies SAP but also generates tremendous motivation in SAP Users, Executives and Project Teams. It can help organizations with dealing with challenges of SAP acceptance and appreciation as well as enhancing business acumen and breaking down corporate silos.

How this ERP simulation workshop runs:

- Participants, in a small teams, run the full business cycle of a small company;
- Teams interact with suppliers, customers, and internal groups
- They use standard SAP reports and dashboards to make and execute business decisions

The goal is to ensure efficiency, effectiveness, and profitability.

Join us at this SAP ERPSim workshop, to feel how to increase company-wide adoption and use of SAP ERP, how to employ an educational venue that delivers a collaborative learning experience.
