

FMCEdge

A KPIT SAP Solution- for Fabricated Metal Industry

Developed on SAP ERP, **FMCEdge** is an enhanced solution based upon the “Best Practices” For Fabricated Metal Industry combined with KPIT Cummins domain experience gained from the implementation done in this vertical. The result is a Substantial reduction in the “**Total Cost of Ownership**” through faster implementation, business- ready-scenarios and fewer customizations.

FMCEdge for Fabricated Metal Industry replaces fragmented distributed systems, disparate technologies and manual process with a flexible, scalable & maintainable blueprint solution for Indian Small & Medium enterprise (SME) that lets you add new core process as your business grows. **FMCEdge** puts the power of integrated core business solutions within the reach of mid sized companies, no matter what production model is used.

FMCEdge enables adaptive Manufacturing by closing the vital information loop between the plant floor and the enterprise resulting in a real time visibility into crucial business process from design, production and scheduling to inventory, quality and after-sales, allowing quick response to changes.

Industry Segments

- Fabricated Metal Industry
- Tier I & II Suppliers

Our Templated solutions help you realize *value faster*

- 80+ SAP Best Practice Scenarios & 55+ KPIT developed Biz. Scenarios Configured, Templated for FabMetal Industry, Tested and Implemented
- Value of Information making improved
- Improved Response Time for any key decisions
- Integration across functions and processes
- Shorter Implementation Time for lower TCO

FMCEdge

Normal Implementation time

Implementation time with KPIT

● **20% reductions** in implementation time due to time reduction in 3 phases:

- ✓ Requirement Analysis
- ✓ Solution Design
- ✓ Solution Development

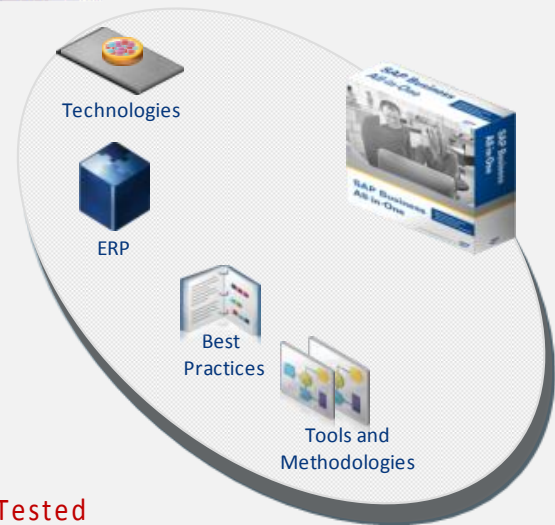

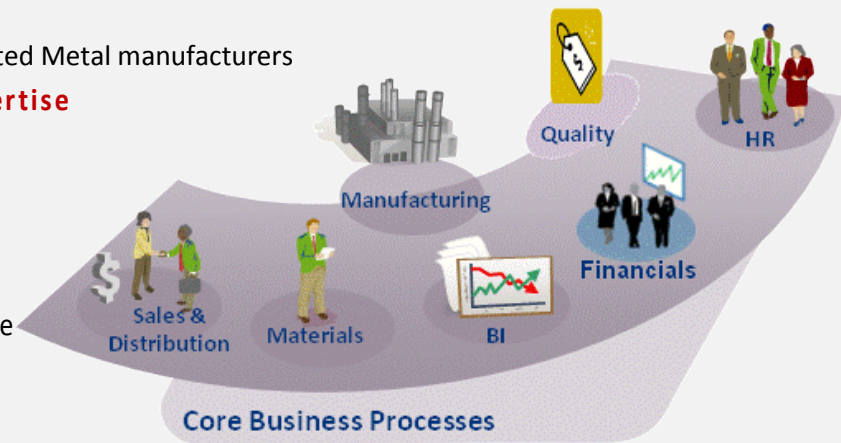

● **FMCEdge – Our Pre-Built solution** for Fabricated Metal manufacturers
Specific challenges & with deep **Domain Expertise**

● **Sub-Verticals Covered**

- Saw Blades and Handsaws
- Nuts/Screws/Washers & Hardware NEC
- Metal Stampings NEC
- Enameled Iron and Metal Sanitary Ware
- Industrial Valves & Fluid Power Valves
- Plumbing Fixture Fittings and Trim
- Heating Equipment Except Electric
- Steel Springs & Fabricated Structural Metal
- Valves and Pipe Fittings NEC
- Prefab Boiler Shop & Wire Springs
- Ornamental Metalwork & Fab. Pipe/Fitting
- Miscellaneous Structural Metal & Screw Machine Products
- Fabricated Metal Products NEC

● **Rapid, predictable deployment**

- Streamlined business scenarios
- Implementation accelerators
- 80+ SAP Best Practice Scenarios & 55+ KPIT developed Biz. Scenarios Configured, Templated for FabMetal Industry, Tested and Implemented
