

Highbar RapidStart for RMC is developed on SAP platform to provide competitive advantage to the Ready Mix Concrete (RMC) industry. Highbar Technologies, with its deep expertise in designing and deploying integrated SAP solutions for EPC, Construction, Infrastructure and Real Estate organizations with batching plants, has evolved this solution with Industry specific templates & value additions.

This pre-configured solution is designed to address critical challenges related to batching plants and RMC manufacturers and is flexible and scalable to suit organization specific requirements, thus ensuring:

- Quicker Return on Investment
- Predictable implementation with minimum risk
- Fully operational business on SAP platform in matter of months
- Minimum disruption to business stakeholders
- Considerable cut down in implementation cycle-time

Need for Highbar RapidStart for RMC

Current RMC market in India is 5% of total cement production as compared to global standard of 70%. With high focus on quality in construction, the Indian RMC industry is set to grow at very high pace. Some of the key trends and business dynamics of RMC industry are as follows:

To manage these business dynamics and trends and ensure sustainable business growth, organizations need to focus on key improvement opportunities, which are,

- Effective delivery mechanism: on-time and on-quality delivery
- Effective facilities management
- Improving efficiencies of sales channels
- Operational excellence
- Effective Fleet Management
- Invoice tracking (Receivable Management)

Highbar RapidStart for RMC: Enables proactive streamlining and effective addressing of improvement opportunities.
